*The Jesuit use of Black envy pursuant unto the Jesuit's economic goal of control of Boer Gold and Diamonds [1], and their religious goal of the elimination of the Protestant Christian peoples of the earth [2] through their political propaganda tool known as Communism [3] in the History of South Africa.*

*Proofs of a Conspiracy Against all the Religions and Governments of Europe by John Robison (1798 A.D.)* page 11,

"I have been able to trace these attempts, made, through a course of fifty years, under the specious pretext of enlightening the world by the torch of philosophy, [Jesuit trained Rene Descartes-DS] and of dispelling the clouds of civil and religious superstition which keep the nations of Europe in darkness and slavery. I have observed these doctrines gradually diffusing and mixing with all the different systems of Free Masonry; till, at last, AN ASSOCIATION HAS BEEN FORMED FOR THE EXPRESS PURPOSE OF ROOTING OUT ALL THE RELIGIOUS ESTABLISHMENTS, AND OVERTURNING ALL THE EXISTING GOVERNMENTS OF EUROPE.

I have seen this Association exerting itself zealously and systematically, till it has become almost irresistible: And I have seen that the most active leaders in the French Revolution were members of this Association".

## Introduction

Apartheid refers to the racial segregation imposed by the Nationalist Party of South Africa from 1948 to 1994. Anti-white Communist writers, which are little else than Jesuit educated and/or Jesuit coadjutors pursuant unto the Counter Reformation agenda of the extermination of the Protestant peoples of the earth [Remember, the Spanish Armada failed, the Inquisition failed, then the Thirty Years War failed. The next great attempt is Communism], attribute the Boer element of South Africa as an ambitious group of white tyrant conquerors exploiting the black man's land and resources. The fact is, they were a group of people very similar to the early colonies of America, running for their lives from the British Empire and the Roman Catholic Inquisition. The Negroes of South Africa were never an adventurous people or a people of exploration, but the white man is and because of this he found South African gold and turned a jungle into a first world country [4]. Because of this the black man envies the white man and the Jesuits know how to turn that envy into a political instrument. It is this political instrument that has now developed into a machine of war that is murdering and raping the Boers into non-existence in South Africa just like the white African farmers were eliminated from Mugabe's Zimbabwe.

Thanks to the Pope's slave trade [5], and the Jesuit Order that fled to England under George III during their suppression[ 6], which ordered the flooding of Africans into our shores to start a race war and destroy our white Protestant Culture [7], the Africans have been used over and over again to utterly annihilate the White-Anglo Protestant Culture of These Original Colonies.

The [Black racism and race hatred of non blacks blog](#) catalogs the thousands of race hate crimes of blacks against whites. Ice T's Home Invasion CD Cover shows the fascination that our media has ingrained into the white youth with savage black culture, pursuant unto the de-Christianization and savagizing of the white race in this land that will ultimately culminate in the exact horrors of Zimbabwe that our media is currently hiding from us. I recently watched a documentary entitled: "Mugabe and the White African". The regime of Mugabe does not care about the social ills of the blacks in Zimbabwe. Mugabe (Jesuit trained at Kutama College) has

used agitation of blacks against whites to destroy the whites and take possession of their lands and possessions (Just like Lenin did in Russia) as the property OF THE GOVERNMENT, while telling the blacks that he is going to redistribute it to them (Just like Lenin in Russia); but he isn't doing it. He is redistributing the land in an extremely slow rate but not giving these few people equipment to use the land, therefore they are starving (Just like Lenin did in Russia!). My black reader, the social ills that your Government, and its CFR controlled media and educational facilities have used to agitate you against the white people here are not meant to help you. They are meant to savagize you; to give you no hope of any future, thus demoralizing you and ushering you into a life of crime. These crimes that are being cataloged [8] will be used to present to this government, the same kind of question that was brought before the German Government concerning the Jews during the rise of the Nazi regime and that is: what is the answer to the Black problem?

Just as Mugabe has demonized the whites, saying that they stole the black's land (Just like our American Liberals like to agitate by saying the white's stole the Siberian's land here in the US), to justify a Communist Totalitarian Government, our Government will use you, to justify a Fascist Totalitarian Government. And as Carroll Quigley pointed out in his *Tragedy and Hope*, both of those groups are controlled by the same international banking organizations that created them in the first place, pursuant unto that old Illuminist agenda: the destruction of all traditional governments and religions.

The solution that I present in this short treatise is Secession, and Segregation; nations for white people (some immigration accepted) and nations for black people. General separation of the races, disarms the primary weapon of the Jesuit NWO: racial agitation. That is what we need and this paper is a case study in just what might happen to my country in the near future. This paper is presented in order to avoid such an atrocity.

### *The History of South Africa In Timeline Form*

I will proceed by explaining the history of South Africa in timeline form and move to persuade the reader that South Africa is a parallel case to These United States of America and the exact genocide the Boers are receiving at the hands of the Order in South Africa is planned for These United States.

In an interview between Deirdre Fields and Kevin Alfred Strom, Fields made the assertion that the when the first white settlers arrived in South Africa in 1652 under the Dutch East India Company in Holland, there were only Bushmen and Hottentots; neither were negroes. From the research that I have done this completely contradicts the Historical record. In Ridpath's, *Cyclopedia of Universal History Volume 8*, page 635, Ridpath clearly affirms that Hottentots were Negroes! His Race Chart No. 8 does in fact show two distinct stems between Nigritians and Hottentots but his Race Chart No. 1, in Volume 2 of his *Universal History*, seems to suggest that the Hottentots are later outgrowths of the Nigritians. Not only so, the peoples of the eastern side of South Africa, the Kaffirs (Bantu), were also Negroes [9]. Ridpath, in his Race Chart No. 1 shows that Kaffirs came from the Western branch of the Hamites. On the other side of this debate we have David Downing, who, in his *Apartheid in South Africa* (Heinemann Library: Chicago, IL, 2004), pg. 52, asserts that the Khoi-khoi, later to be known as Hottentots inhabited South Africa from 8000 B.C.E. Now this is fantastical as are all claims of any history more than about 6000 years ago. There simply is no record of such a history. These are speculations the man is making from his biased presumptions. I have seen numerous dates pertaining to the Khoi-khoi; some 2000 B.C., some 500 A.D., but from what I found in Ridpath I would guess that this group began to inhabit South Africa sometime between 1000 B.C. and 2000 B.C.

**1652-1740-** In *The Story of South Africa by John Clark Ridpath and Edward Sylvester Ellis* we are given a full history of the Dutch arrival into Africa beginning on page 47. The Cape of Good Hope was recognized as the midway point between the western world and the Orient (pg. 51). The Dutch settlement at Cape Town was created in 1652 and the jurisdiction only extend a few miles into the continent because they originally did not seek to establish a new state there. (pg. 51) They were met by the Khoi-khoi, later to be known as Hottentots. As more Europeans came the border increased into the continent and conflicts with the Natives began. The British East India company excised tyrannical tax upon them (pg. 52). In order to meet the demands of the British to conduct trade, the Dutch treated the natives with severity and enslaved some of them. (pg. 53) In October 1685, Louis XIV of France, renounced the Edict of Nantes and declared Protestantism illegal with his Edict of Fontainebleau. This was the impetus for French Protestants to enter the Cape Colony. Out of this group came the Boers. They were native born, did not want anything more to do with their own Dutch Government and the British with their wars with the local natives. They began to settle in the interior, independent of the Cape Colony. In 1740 Boers crossed the Gamtoos River (Pg. 54). The Kaffirs were upset at this but the Boers did not try to oppress anyone. They did not kill them off. They defended their settlement. The area was sparsely inhabited so it is not as if the Kaffir's had nowhere to go.

**1806-1814** British troops seize Cape Town. In the Anglo-Dutch Treaty of 1814, it was permanently ceded to Britain.

1830's-1840's The Great Trek- Thus begins the Boer North East Migration from Cape Colony pursuant unto the founding of the Boer republics: the Natalia Republic, the Orange Free State Republic and the Transvaal due to British theft and criminal taxation. Downing surprisingly admits this on page 8. The white Boers were entering into the interior of South Africa at the same time as the Bantus were moving to the South. Both had an equal claim to the land. There were no territorial property lines set up. Black apologists complain that "You cannot say to a man that this land is not your because I did not find you at this particular place at this particular time." (Downing quoting Motlana, pg.9) First, he gives no reason why, he just asserts it. Second, on the one hand there is a difference between setting up a boundary and leaving and expecting to come back and on the other hand asserting that your ancestors were Nomads as your principle grounds.

**1837-1838** The Weenen Massacre. In November of 1837, the Boers, led by Piet Retief, visited Zulu King Dingane kaSenzangakhona (Dingaan) at the Royal Kraal in hopes to achieve permanent settlements in Natal. Some of Dingaan's cattle had been stolen by Chief Sekonyela and he asked as a token of friendship for Retief to recover them. They did so. After returning them to Dingaan, [a treaty was signed on the 4th of February, 1838](#), by Dingaan that ceded all the land south of the Thukela River, as far as the Mzimvubu River, in the Transkei, to the Boers.

On February 6, Retief and his party were invited to a farewell dance, where they were expected to lay down their weapons upon entering the celebration. Taking advantage of the unarmed Boers, Dingaan shouted "Kill the wizards!" The Boers were massacred there at the celebration and later more Boers were killed in the Weenen Massacre. [10]

The Lord then came to the aid of the Boers in December of 1838 in the battle of Blood River giving Victory to 470 Boers against over 10, 000 Zulus and then inciting the wicked British against the Zulu's in the Anglo Zulu War of 1879 culminating in the end of the Zulu nation in 1897. Of course, the blacks, like Downing will complain that the African land was stolen by the Boers while the historical record says that the Boers earned a portion of Africa by helping an African King who betrayed them and what goes around came around and the Zulus lost their land to the British. But you see, that will never be spoken of on the mainstream news, because those white Protestant Christians Boers must die, because the Jesuits you-see, are Counter-Reformation.

**1879-1897-** Anglo-Zulu war and the end of the Zulu Kingdom by the British, NOT THE BOERS!

**1880-1881-** The Anglo-Boer war ended in a truce.

**1886-** Gold was discovered near Johannesburg. A massive influx of **Uitlanders** foreigners came in search of employment and fortune. The discovery made the Transvaal the richest nation in southern Africa. Therefore, reader, do not fall for the Jacobin propaganda that South Africa became wealthy because of the exploited black workforce. It became wealthy because of its gold and diamond deposits. Now this discovery ushers in an era of intrigue and political power play which Ridpath describes in his *The Story of South Africa*, pg. 231-233,

"He [Cecil Rhodes-DS] then sailed again for South Africa and lost no time in making his way to Kimberley, where, by shrewd investments in mining claims, he not only added greatly to his wealth, but acquired a marked influence in affairs. The history of all great booms shows that the abnormal prosperity was followed, in a short time, by depression which is as abnormal as the original rise in values. **It is these depressions which form a golden opportunity for shrewd capitalists. Cecil Rhodes availed himself of the chance thus offered him by a slump in the value of the mining claims. He expended every dollar in buying up shares, claims and lands, and then formed the idea of uniting in a monopoly or syndicate all the diamond industries of that country.** [Things like this don't happen anymore...right?-DS]

This was so stupendous a scheme that it was far beyond the reach of Mr. Rhodes and his friends. With that resolute audacity which is a distinguishing trait of his nature, **he went to the Rothschilds**, those colossal bankers whose clients are the leading Powers of the world, briefly stated his wishes, and asked them to advance the necessary capital. It is hardly necessary to say that Mr. Rhodes was successful, and he took back with him to Africa all the money necessary **to buy the remaining claims or property in the Kimberley district. The great De Beers Company was formed and Rhodes was made managing**

**director for life, at a salary of one hundred and fifty thousand dollars a year.** The annual dividends of this vast corporation amount to fifty per cent, and nearly half a **billion dollars worth of diamonds have been placed in the markets of the world.** This success is mainly due to the marvelous ability of Mr. Rhodes.

It was natural that such an ambitious man should enter politics. His popularity was undeniable, and he became a candidate for the Cape Colony Parliament from the Kimberley District. The same qualities that he had displayed in a business way enabled him to secure his election, which was followed in time by his choice to the highest office in the government of the Colony. He was friendly with everyone, Boer, Dutchman, Afrikaner, Englishman and the natives of other countries, an ardent believer in the dogma that every man has his price, and the possessor of almost limitless wealth. It can readily be seen that his success was complete. Like leading politicians elsewhere, Mr. Rhodes soon built up a party upon whose loyalty he could depend, no matter what policy was adopted, through thick and thin. **Had he proclaimed a rebellion against the mother country, thousands of men, devotedly attached to the Queen and the home government, would have rallied under his banner, so, when it became manifest that, as has been stated elsewhere, his policy was British rule from Cairo to the Cape, it attracted a multitude of ardent supporters.** In the face of difficulties which would have overwhelmed almost any other man, **he formed the British South Africa Company, more generally known as the "Charter Company," which, in 1895, became the real owner of Rhodesia** [Which Robert Mugabe used to oppress the Whites and bring all the land of Rhodesia, now Zimbabwe, under the ownership of the Government. But just as the Communist Lenin before him, he is starving his own people in the time it takes to redistribute the property. You see the Illuminati control both the problem and the solution.-DS]. By this time Mr. Rhodes was a multi-millionaire, the head of one of the most enormous capitalistic enterprises of the globe, and the Premier of Cape Colony.

But, like Napoleon, his ambition fed upon itself. Between him and the fulfillment of the supreme ambition of his life towered the But, like Napoleon, his ambition fed upon itself.

**Between him and the fulfillment of the supreme ambition of his life towered the two republics of the Transvaal and the Orange Free State,** [DID YOU CATCH THAT?-DS] blocking his path as by a mountain which, however, this genius believed, if it could not be surmounted, could be tunneled. The mistake must not be made of attributing to Mr. Rhodes as a controlling motive in his political course, that of sympathy with the alleged wrongs of the Uitlanders. In truth, he cared nothing for them, and once bluntly told one of their leaders who went to him with complaints, that if dissatisfied with his treatment by the Boers, he was a fool not to accept the remedy within his reach, by leaving the country. It is conceded that Mr. Rhodes was the real instigator of the Jameson raid, which proved, for a time, as disastrous to him as to its immediate participants.”

Now what was the Jameson Raid? This was a coup attempt to overthrow the Boer Government in the Transvaal. Cecil Rhodes wanted to control Boer Gold and so he plotted the Jameson Raid to rise up the Uitalnders (Migrant workers) to supplant the Boers and bring the gold mines under his British control. This Raid was led by Leander Starr Jameson, the Administrator General of the Chartered Company (Cecil Rhodes was Chairman). However, the Raid failed. Does this plot not sound unmistakably similar to the rise of the ANC in South Africa reader? You see, when the Jesuits form a plot, if it doesn't succeed the first time, they will try it again. Could it be that the Jesuits are attempting to resurrect Nazi Fascism in our country? It is due to such open conspiracies that Boer apologists like Deirdre Fields [11] accuses Harry Oppenheimer, son of Ernest Oppenheimer, who controlled the De Beers (Cecil Rhodes' Diamond Industry), of being behind the Marxist revolutions in South Africa.

I will not be deceived by the likes of the Nazi propagandists who would have me to believe that the Jews control the NWO. NO! They are the tail and the Jesuits are the head. The following quotations are summaries of the ultimate conclusions that I have come to following Protestant Historicism and the history laid out by Eric Jon Phelps in *Vatican Assassins*. In **The Last Will and Testament of Cecil John Rhodes, edited by W.T. Stead (1902)** we read on page 56, when Stead says,

“Mr. Rhodes was more than the founder of a dynasty. He aspired to be the creator of one of those vast semi-religious, quasi-political associations which, like **the Society of Jesus,** [Jesuits-DS] have played so large a part in the history of the world. To be more strictly accurate, he wished to found an Order as

the instrument of the will of the Dynasty, and while he lived he dreamed of being both its Caesar and its Loyola [Jesuit founder-DS] .”

Again Stead says on pages 62-63 and this is absolutely astonishing,

“All these wills were framed under the influence of the idea which dominated Mr. Rhodes's imagination. He aimed at the foundation of a Society composed of men of strong convictions and of great wealth, which would do for the unity of the English-speaking race what the Society of Jesus did for the Catholic Church immediately after the Reformation.

The English-speaking race stood to Mr. Rhodes for all that the Catholic Church stood to Ignatius Loyola. Mr. Rhodes saw in the English-speaking race the greatest instrument yet evolved for the progress and elevation of mankind shattered by internal dissensions and reft in twain by the declaration of American Independence, just as the unity of the Church was destroyed by the Protestant Reformation. [Thus the Jesuits would mount Rhodes' NWO which they inspired in him to begin with to re-assimilate the Holy Roman Empire-DS] Unlike Loyola, who saw that between Protestants and Catholics no union was possible, and who therefore devoted all his energies to enable the Catholics to extirpate their adversaries, Mr. Rhodes believed that it was possible to secure the reunion of the race. Loyola was an out-and-out Romanist. He took sides unhesitatingly with the Pope against the Reformers. The attitude of Mr. Rhodes was altogether different [But the solution was the same-DS]. He was devoted to the old flag, but in his ideas he was American, and in his later years he expressed to me his unhesitating readiness to accept the reunion of the race under the Stars and Stripes if it could not be obtained in any other way.”

Stead says again on pages 64-66,

“Mr. Rhodes's political ideas were thus written out by him in one of the very few long letters which he ever wrote to anyone, just before his departure from Kimberley to Mashonaland in the autumn of 1891. The communication takes the shape of a *resume* of a long conversation which I had had with him just before he left London for the Cape. Despite a passage which suggests that I should sub-edit it and dress up his ideas, I think the public will prefer to have these rough, hurried, and sometimes ungrammatical notes exactly as Mr. Rhodes scrawled them off rather than to have them supplied with " literary clothing " by anyone else :

[Rhodes' words-DS] Please remember the key of my idea discussed with you is a Society, copied from the Jesuits as to organisation, the practical solution a differential rate and a copy of the United States Constitution, for that is Home Rule or Federation, and an organisation to work this out, working in the House of Commons for decentralisation, remembering that an Assembly that is responsible for a fifth of the world has no time to discuss the questions raised by Dr. Tanner or the important matter of Mr. O'Brien's breeches, and that the labour question is an important matter, but that deeper than the labour question is the question of the market for the products of labour, and that, as the local consumption (production) of England can only support about six millions, the balance depends on the trade of the world.

That the world with America in the forefront is devising tariffs to boycott your manufactures, and that this is the supreme question, for I believe that England with fair play should manufacture for the world, and, being a Free Trader, I believe until the world comes to its senses you should declare war I mean a commercial war with those who are trying to boycott your manufactures that is my programme. You might finish the war by union with America and universal peace, I mean after one hundred years, and a secret society organised like Loyola's, supported by the accumulated wealth of those whose aspiration is a desire to do something, and a hideous annoyance created by the difficult question daily placed before their minds as to which of their incompetent relations they should leave their wealth to. You would furnish them with the solution, greatly relieving their minds and turning their ill-gotten or inherited gains to some advantage.”

Mr. Stead, writing to his wife in 1889 says on pages 82-83,

"Mr. Rhodes is my man.

" I have just had three hours' talk with him.

"He is full of a far more gorgeous idea in connection with the paper than even I have had. I cannot tell you his scheme, because it is too secret. But it involves millions. . . . He expects to own, before he dies, four or five millions, all of which he will leave to carry out the scheme of which the paper is an integral part. . . . His ideas are federation, expansion, and consolidation of the Empire.

" He is .... about thirty-five, full of ideas, and regarding money only as a means to work his ideas. He believes more in wealth and endowments than I do. He is not religious in the ordinary sense, but has a deeply religious conception of his duty to the world, and thinks he can best serve it by working for England. He took to me; told me things he has told to no other man, save X. ... It seems all like a fairy dream."

It is not very surprising that it had that appearance. Never before or since had I met a millionaire who calmly declared his intention to devote all his millions to carry out the ideas which I had devoted my life to propagate.

Mr. Rhodes was intensely sympathetic, and like most sympathetic people he would shut up like an oyster when he found that his ideas on " deep things " which were near to his heart moved listeners to cynicism or to sneers.

He was almost apologetic about his suggestion that his wealth might be useful. "Don't despise money," he said. "Your ideas are all right, but without money you can do nothing." " The twelve apostles did not find it so," I said; and so the talk went on. *He expounded to me his ideas about underpinning the Empire by a Society which would be to the Empire what the Society of Jesus was to the Papacy,* and we talked on and on, upon very deep things indeed."

You see the Jewish International Banking Cartel is the tail and their true head is the Order of Loyola, the Jesuits.

**1899-1902-** Second Boer War- Here we have the Annexation of the South African Republic into the British Empire under Edward VII. This is the first attempt to eliminate the Boers. This is also the first appearance of concentration camps in the West. Boer women and children were the primary occupants of the concentration camps.

**1910-** Creation of the Union of South Africa under the British Empire. The Boers and Zulus now supplanted, King Edward VII, through his friend J.P. Morgan, Papal Financier of America [12], incorporated South Africa's Gold and Diamonds into the International Banking Cartel, now firmly in their possession; funding for the coming World Wars was now in hand.

**1912-** Creation of South African Native National Congress later to be known as the African National Congress (ANC) for non-whites.

**1913-** Natives Land Act. This is the first major piece of Segregation Legislation passed by the South African Government. 7% of the land was given to the Non-whites, but more would be given to them in 1977, but they still complained.

**1946-** Non-white Miners strike.

**1948-** Institution of Apartheid pursuant unto the forming of the National Party. Downing complains,

"Non-white races would be allowed into white territory to work to create wealth for some of the white inhabitants, but they would only have political rights in their own territories where the rest of their families would live in their permanent homes. . . and they could still use black labor to make themselves rich." [13]

But Mr. Downing what is wrong with that? Exploitation through interest taking is allowed in the Mosaic law and there were clear prohibitions to take usury from Israelites, so this could not have been an allowance due to the maintenance of the commonwealth of Israel as in Polygamy:

*Deut 23:19 "You shall not charge interest to your countrymen: interest on money, food, or anything that may be loaned at interest. 20 You may charge interest to a foreigner, but to your countrymen you shall not charge interest, so that the Lord your God may bless you in all that you undertake in the land which you are about to enter to possess.*

We see also in Lev 25:44-45 much more exploitation in the purchasing of hereditary slaves. When a lower culture wants to benefit from a higher culture it is just to exploit those people for the benefits they receive. This was the case with the South African black who had a higher standard of living than any other black people in Africa while under Apartheid. Downing likes to complain that the non-whites lived poor lives and were looked upon as second class citizens. I ask, Mr. Downing, have you ever read Genesis Chapter 9?

*Gen 9:24 When Noah awoke from his wine, he knew what his youngest son had done to him. 25 So he said, "Cursed be Canaan; A servant of servants He shall be to his brothers." 26 He also said, "Blessed be the Lord, The God of Shem; And let Canaan be his servant. 27 "May God enlarge Japheth, And let him dwell in the tents of Shem; And let Canaan be his servant."*

Dabney points out that the servant-hood proclaimed by God upon Canaan in Genesis 9 is not just a prophecy but is "a verdict, a moral sentence pronounced upon conduct, by competent authority; that verdict sanctioned by God." (*Defence of Virginia*, pg. 103) That is not the white man's fault Mr. Downing. That is the fault of your racial father Ham. Your people are cursed by God in this respect. They always have been and they always will be (Until the Lord comes back). Don't get mad at me; that is God's verdict through his prophet Noah.

**1950-** The Suppression of Communism Act was passed banning all Jacobin activity.

**1955-** The ANC, INC, and the Congress of Democrats (White South African Communist Party) produced the Freedom Charter (Typical Communist Principles).

**1960s-** Beginning of the Black Consciousness Movement- Criticism of White Supremacy and avocation of Black Liberation wasled by Steve Biko.

**1961-** Union of South Africa under the British Empire became The Republic of South Africa. This is where the British element disappears in a mysterious cloud of smoke as now the Boers are to take the blame for every social ill in South Africa, pursuant unto the lyrics, "Kill the Boer" and not "Kill the Anglo". The Umkhonto we Sizwe, the military wing of the ANC was created in this year and performed acts of sabotage on state structures. Could it be that just as the Jesuits through their servants in England destroyed our country through their African Slave trade, creating numerous groups designed to destroy the Anglo-Protestant Culture of these original colonies, (The Abolitionists, the Tories, the Carpet Baggers, the 2<sup>nd</sup> and 3<sup>rd</sup> KKK's, the NAACP, and the Civil Rights movement [The Kill the White Protestant Culture Movement]) they rose up the ANC against the Boers, while the English Government stepped off the stage in the shadows while the Boers got the spotlight to take all the blame?

**1962-** Mandela was imprisoned.

**1964-** Mandela, along with seven other coadjutants were sentenced to life in prison.

**1966-** President Hendrik Frensch Verwoerd, the mind behind Apartheid, was assassinated by Manchurian candidate Demetrio Tsafendas who was described in a very similar way to our recent CIA Black Op Nut Job Assassin James Holmes [14]. This has the American CIA (The Pope's Deposing Power) all over it. Balthazar Johannes Vorster takes over until 1978. He took first steps in dismantling Apartheid by integrating sports.

**1973-** The Afrikaner Weerstandsbeweging (Afrikaner Resistance Movement-AWB) South African political party, was formed in 1973 by Eugène Terre'Blanche. The symbol is clearly Nazi which means it is Jesuit in substance. [15] It was the inspiration for violent activity against blacks, especially in 1976.

**1977-** Bophuthatswana (A very wealthy province at the time) was given to non-whites as a homeland by the Apartheid South African Government. But that wasn't enough because the Jesuits are not a live and let live organization. Their plots flourish through agitation.

**1978–1989-** P. W. Botha became prime minister and president of South Africa. He negotiated the release of Mandela.

**1989-1994-** F. W. de Klerk becomes President, released Mandela, and handed over Apartheid completely.

**1990-** Mandela is released from prison.

**1994-** Fall of Apartheid. South Africa becomes the murder and rape capital of the world and still is in 2012! [16]

**1999-** It is revealed through the South African Post office, in commemoration of the 900th Anniversary of The Order of Saint John, that Mandela is indeed a member of the Knights of Malta. The South African Post office issued a stamp with Mandela's image in full uniform. The stamp is posted at the top of this article.

**2012 July-** Genocide Watch rates South Africa a stage 5 level of Genocide which is the step right before the last two steps of preparation for utter extermination. [17] The Chinese Communists are in league with the ANC who could be the final solution to the Boer problem in South Africa.[18]

### *Conclusion*

It is so strange to me that blacks complain about hating all things White European and at the same time rapaciously neighing after Communism. As I demonstrated in my article [\*The Origin of the Term "White Devil"; The Jesuit Roots of Anti-White Racism\*](#), the Jesuits used racial agitation with the Natives of Paraguay in the 18<sup>th</sup> Century, pursuant unto war, saying that,

“white laymen adored gold, had a devil in their bodies, were the enemies of the Indians, and of the images which they adored; that they would destroy their altars, and offer sacrifices of their women and infants; and they were consequently taught to kill white men wherever they could find them, and to be careful to cut off their heads, lest they should come to life again”.

You see racial agitation against the white man has an agenda. The Spanish and Portuguese governments were becoming enemies of the Jesuits and to present a force of threat to their Governments, the Jesuits agitated the many Natives of Paraguay against the Dominions of the Portuguese and Spanish in the New World, through racial agitation. Does this not sound exactly like what has happened in South Africa in the last 100 years? Could it be that this system of racial agitation, pursuant unto the downfall of local governments through violent revolutions, mixed with the socialist economic philosophy of their Reductions

[<http://eternalpropositions.wordpress.com/2012/01/18/the-jesuit-roots-of-socialism-and-communism/>]

first penned by that White European Devil Sir Thomas More, perfected the political tool that they have been using for centuries now pursuant unto the downfall of all traditional governments and religions: Communism? Could it be that you, my non-white reader, are being agitated by your media and educational institutions in the exact same fashion, pursuant unto the downfall of the governments of These United States? Could it be that Communism is more dangerous to you and your racial peoples than the Jesuits have led you to believe White European Culture is? Could it be that Robert Mugabe has used Communism, and through it, racial agitation against the white people, not to help native blacks in South Africa, but to steal the lands and farms of White Protestant Peoples in Zimbabwe to enrich himself and his Jesuit masters (Mugabe was trained by Jesuits at Kutama College)? Could it be that just as he has starved his people unto death, the Black-Marxist movements in America are designed to do the same kind of thing to you? Could it be that Jesuits are on both sides of the Socialist-Fascist political paradigm here in America and playing both sides of these parties to end up being the ultimate benefactors?

The Black Communist cry for equality is just a ploy to suppress the whites pursuant unto the destruction of the WASP culture that took the Holy Roman Empire from the Papacy 5 centuries ago in Europe. The fact is, God has not created us all equal. Blacks are under the curse of Genesis 9. Man is the head of woman (1 Cor 11:3). Parents have the right to rule over their Children (EXO 20:12). [19] That is not universal equality.

All during Apartheid, the South African blacks called for equal rights for all, but after the ANC came to power, the whites have received nothing but Genocide. Mandela has even been caught on tape singing about murdering white people.[20]

What other race goes around the world helping other races with medical aid, adoption and shelter, but the whites? When do Chinese go around adopting white people who are being persecuted? When do black people? White men have led the way in philosophy, science, technology, and literature that birthed the modern world and provided the comfortable civilization we now live in. I comfortably drove to work today in a vehicle originally invented by a white German man named Karl Benz. I worked on a computer invented by a white American named John Vincent Atanasoff. I am writing in the light of an invention called a light bulb invented by an American white man named Thomas Edison, generally known as the mind behind our mastery of electricity in

general. I spoke with my Mother on a device called a telephone, invented by a white Scottish immigrant to America named Alexander Graham Bell. I watched a program on a device called a television, originally invented by a Scottish white man named Alan Archibald Campbell-Swinton. And all along I did it in a cool environment made possible by air conditioning originally invented by white men like the Scottish James Harrison and the American Willis Haviland Carrier. When I walked down the hallways of my Hotel and handed out Newspapers in the morning, I listened to movies on my iTouch invented by that white American Steve Jobs. I read a book made possible by a white German named Gutenberg with his printing press. The amazing thing is, all these men, with the exception of Gutenberg who died before the Protestant Reformation, came out of traditionally Protestant cultures! Do I need to go on?

Who else but the whites, especially the white Protestant Christians, go around the world on missions and establish hospitals and schools for third-world countries, and sometimes countries that have never been introduced to an inkling of civilization? And do I need to emphasize those racially tight knit white ancient Greeks and their penchant for philosophy? They still rule the philosophy classrooms of today.

Moving up from that great Roman Aurelius Augustinus, one of the most influential people in world History, we have the Protestant Reformation that opened the world to universal literacy and human progress beginning in Germany, then Elizabethan England and then the birth of the modern era with the Peace of Westphalia. We have that Great German Reformer Martin Luther, whose white German intellect was clever enough to discover the plots of the Roman Papacy to free the Western world from Papal Tyranny. And who does the Protestant Culture produce? A modest list would produce such names as William Shakespeare, Sir Isaac Newton (Who made all that subsequent invention possible), Adam Smith, Samuel Rutherford, John Locke, Johann Sebastian Bach, James Watt, William Wilberforce, Thomas Clarkson-need I go on? You see my friend, this white race, and particularly this White Protestant people are the bread and butter of human progress and civilization. Yet today, these peoples are the most hated, misunderstood, and misrepresented people on the face of the earth. Why you ask? Because the Jesuits are Counter-Reformation.

“PUBLIC INCIDENTS AND FUNCTIONS

Meanwhile, various incidents illustrative of the King's tact and influence upon public affairs had occurred. His well-known interest in American affairs was shown on June 1st by an official reception given at Windsor Castle to the members of the New York Chamber of Commerce who were visiting England as guests of the London Chamber of Commerce. Accompanied by Lord Brassey and the Earl of Kintore, some twenty-five gentlemen were presented to His Majesty and Queen Alexandra. They included General Horace Porter, Mr. Morris K. Jessup, the Hon. Levi P. Morton, the Hon. Cornelius N. Bliss and Mr. J. Pierpont Morgan.”
